

# Technical Requirements

## Humane Transport

Date Issued: October 21, 2020

---

### Team Members:

Kelly Holtzman, Sana Khan, Mansi Patel, Clark Inocalla

---

### Technical Requirements

---

We define Technical Requirements for the project as requirements for tools, devices, and procedures needed for good software development.

---

### Cross-Platform Mobile Project

---

A choice of multiplatform project that would allow both iOS and Android development: the project should have readily available support, use a language with available support, and be integratable with a respective Interactive Development Environment (IDE).

---

### Database Server

---

A choice of database that allows us to store and retrieve data from the database and allows us to interact with mobile applications.

---

### Other Tools/Technologies

---

A choice of different development tools such as Automated Testing Tool, Code Formatter, Revision Control, API Testing Tool, Unit testing, Integration testing, System testing, that allows us to maintain the workflow and with the help of these tools, we can accomplish the optimize results.
