

Project Charter

Humane Transport

Date Issued: Sept 17, 2020

Objective

Team Members:

Kelly Holtzman, Sana Khan, Mansi Patel, Clark Inocalla

The sole purpose of this project is to provide Canadian Food Inspection Agency(CFIA) with a solution for current manual information gathering of transporters involved in Canadian animal transportation.

Goal

To design a mobile application for Canadian livestock transporters which will allow them to easily provide information required by CFIA and other industry partners.

Specification

1. This app will support digital forms following rules & regulations of Health of Animals Regulations(HAR) Part XII section 153 - 154
<https://laws-lois.justice.gc.ca/eng/regulations/C.R.C., c. 296/index.html>
 2. Information provided will be saved in a retrievable database
 3. App will avoid asking repeating information between forms by retrieving pre-stored information once provided
 4. Simple user interface(UI) which is easy-to-learn
-

Stakeholders

1. Canadian Food Inspection Agency(CFIA)
 2. Canadian livestock transporters
 3. Project supervisor
-

Potential Risks

1. Limited time schedule might affect the design process
 2. Changes in government policies(HAR rules & regulations)
-

Milestones/Sprints

1. Requirements Gathering
2. Design Process
3. Prototyping
